EDUCATION

G. Pullaiah College of Engineering and Technology (GPCET)

B.Tech in Computer Science – Artificial Intelligence (2024 – 2028)

- **Academic Performance:** Cumulative **CGPA: 9.05**

TECHNICAL SKILLS

- **Languages:** Python, C, Java
- **AI/Machine Learning:** Data Preprocessing, Feature Engineering, Supervised Learning, Pattern Recognition, Model Evaluation
- **Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Scikit-Learn
- **Web Development:** HTML, CSS, Javascript, React
- **Developer Tools:** Git, GitHub, VS Code, Jupyter Notebook

PROFESSIONAL EXPERIENCE

CodeAlpha | *Machine Learning Intern (Remote)*

- Designed and implemented an **Emotion Recognition** Python model to analyze behavioural data and classify human emotional states with accuracy.
- Developed a **Handwritten Digit Classification** model using foundational ML classification algorithms, processing image pixel arrays seamlessly.
- Engineered a predictive **Credit Scoring Model** utilizing data preprocessing and evaluation metrics to accurately gauge customer creditworthiness.
- Leveraged Git and GitHub for clean code management and version control across multiple deployment modules.

PROJECTS

JavaScript Projects Collection | HTML5, CSS3, JavaScript

- [GitHub](#) | [Live Demo](#)
- Developed a collection of 10 interactive JavaScript applications to strengthen core web development concepts.

ShopEase | HTML5, CSS3

• [GitHub](#) | [Live Demo](#)

- Designed and developed a responsive e-commerce landing page using modern HTML5 and CSS3.
- Built reusable layouts using Flexbox and CSS Grid with a mobile-first responsive design.
- Focused on clean UI design, semantic HTML, and cross-device compatibility.

Calculator | HTML, CSS, JavaScript

• [GitHub](#) | [Live Demo](#)

- Developed an interactive calculator supporting basic arithmetic operations with a clean user interface.
- Implemented user input handling, operator precedence, and real-time calculation logic using JavaScript.
- Strengthened problem-solving skills through DOM manipulation and event-driven programming.

ACHIEVEMENTS & CERTIFICATIONS

- **The Complete Python Bootcamp** – Certified by Haris Ali Khan
- **HTML & CSS Technical Framework Certifications** – Issued by Knowledge Gate
- **IIITDM Kurnool Mathematics Workshop** – Selected attendee representing algorithmic and mathematical logic concepts.
- **College Technical Hackathon** – Active contender working on collaborative problem-solving setups.
- **LeetCode Problem Solving:** Regularly resolving active algorithm and data structure milestones ([hasini 2007](#)).

SOFT SKILLS

- Problem Solving & Logical Thinking
- Self-Learner
- Time Management
